Professional Summary

Graphic Designer & Brand Strategist with 10+ years of experience across Saudi Arabia, Oman, and Sudan, specializing in end-to-end brand systems, campaigns, signage, and environmental branding. Combines a computer science background with operations management experience to deliver practical digital and brand solutions, with strong project ownership, vendor coordination, and fast, high-quality execution under pressure.

Objective

To combine computer science and design to build practical digital solutions with precise interfaces, fast troubleshooting, and reliable delivery.

Core Skills

Brand & Creative

- Brand strategy & identity systems
- Art direction & creative leadership
- Campaign visuals & social media content systems
- Corporate profiles, presentations & print production
- Signage, wayfinding, 3D lettering & environmental branding
- Exhibition & event branding

Web, AI & Technical

- Web design (UI/UX for websites, landing pages, responsive layouts)
- AI tools for creative & workflows (prompting, content/design assistance, iteration)
- Computer science foundations (databases, networking, operating systems, programming concepts, data structures)

- Computer troubleshooting (basic PC/OS/peripherals diagnostics & fixes)
- Structured problem solving (root-cause thinking, clear action plans)

Operations & Delivery

- Vendor & budget management
- Project management & team collaboration
- Quality control, precision craft & fast turnarounds
